Г-Н КМЕТ,

The graph shows a perfect positive linear relationship between the total number of children in the household and the number of those children who are under 18 years old. The x-axis represents the total number of children (0 to 10), and the y-axis represents the number of children under 18 (0 to 10). The data points are plotted at every integer value from 0 to 10, forming a straight line from the origin (0,0) to the point (10,10).
